

I would like to ask the FCC to continue to keep national and regional radio station such as K-Love. I personally support K-Love and know that it is making a difference in the lives of it's listeners. It is the one station I can listen to and know the message and music will be positive. As a former educator, I am all to aware the pitifully poor radio station choices that are out there. By limiting radio statio choices like K-Love kids will not have an opportunity to chose a positive influence. I appreciate your consideration of NOT expanding the LPFM.
